FRIGID FREAKS.Curious Capers Cut by
the Cold Current.

THE WAVE IN CINCINNATI.

The polar wave that struck this latitude
yesterday is with us still, and the abate-
ment in the intensity of the bitter cold is
but slight. The wind is not so fierce, how-
ever, now as during yesterday.

The cold, of course, is the greatest on the
hill-tops and the river bridges. Navigation
on the Ohio has been practically suspended.
Yesterday the ice gorged at the pumping-
house of the Newport Water-works, oppo-
site California and Delhi, some miles below
the city, to North Bend.

Last evening, about 8 o'clock, another
gorge formed in front of the city. At
Stewart's Landing several daring persons
crossed the river on the ice.

As yet no damage has been done to the
boats and barges. All the coal merchants
had big forces of laborers employed yester-
day in securing their fleets.

Mr. Daniel Stone, of D. Stone & Co.,
while at work on his barges, had his ears
frozen.

Mr. A. B. Ayres, of the L. C. & L. Rail-
road, while crossing the Newport Bridge,
had both of his hands frost-bitten.

A man working in a down-town coal-
yard, whose name was not learned, had one
of his ears so badly frosted to-day that part
of it fell off.

Evening before last a farmer named
Rowse, living near Cleves, while riding
along the Westwood Road in company with
his five-year-old son and ten-year-old daugh-
ter, noticed that his children were almost
frozen. He stopped at the house of County
Commissioner Reardon, whose estimable
wife attended to the little ones. Their legs
had been frozen from the knees down.
Through the lady's assistance, however, the
children were restored in time to be taken
home the same night.

The plumbers are reaping a harvest.
Their prices are high and work is plenty, as
hydrants are bursting at the rate of one
hundred a day.

So far the city has sustained no serious
loss by the bursting of water-mains. Mr.
Kirtan, late Superintendent of the Water-
works, having last year effectually looked
out for a recurrence of that year's bursts.
Another thing preventing big bursts is the
layer of snow on the ground.

The thermometer this morning showed up
the degrees below zero as follows: 7 a.
m., 8°; 8 a. m., 7°; 9 a. m., 6°; 10 a. m., 5°.
On the hill-tops the thermometer was 14°
below zero at 6 o'clock this morning.

On the same day last year the thermom-
eter stood 36½° above zero.

Alvis King, a laborer, living at Lick Run,
had his fingers frozen this morning.

Covington has her free bridge at last.
People have been crossing the river on the
ice above the Suspension Bridge all morning.

THE PROSPECTS.

According to the U. S. Signal Service re-
ports the temperature at 7 a. m. to-day at
various points in the West and Northwest
was as follows:Denver, 12° above; Leavenworth, 14° be-
low; Omaha, 12° below; St. Paul, 11° be-
low; Cairo, 4° below; Keokuk, 12° below;
Chicago, 7° below.This shows that the thermometer is slowly
rising at all places, being a change in
that direction of 5° to 8°, except at Leaven-
worth, where it is 1° colder. There is no
probability of any decided moderation of
the weather here for several days to come.

National Associated Press to the Star.

CHICAGO, Jan. 4.—All trunk line trains,
except on the Fort Wayne, which is open,
were delayed six to eight hours last even-
ing. Trains from the Southwest are some-
what delayed.CLEVELAND, Jan. 4.—The thermometer
was 6° below zero last night. No trains
either way between here and Buffalo on
the Lake Shore. The rest are about on
time.

FARMERS FROZEN TO DEATH.

CHICAGO, Jan. 4.—There is little or no
change in the condition of the weather.
The driver of the Co. Grove avenue
car caught up with a farmer's train going
at a slow pace on the car track, and after
fruitless exertions to have the farmer turn
out, an examination was made, and he was
found frozen to death, sitting upright in
his seat, with the lines in his hands.

Another farmer was found frozen to
death in his wagon at the Stock-yards, en-
route to the city. There was no hint to es-
tablish the identification of either of these
men.

There is no end to reports of frozen legs,
feet, fingers, ears, noses, cheeks, &c., on the
part of people who have been obliged to be
out in this severe weather. The police, every
night, fill up the stations with poor
creatures who have no homes or who are
too drunk to take care of themselves.
There is not much suffering among the
worthy poor, as all have been enabled, on
account of cheap food, clothing and provi-
sions, to prepare for severe weather.

HELD DOWN BY A LOG.

DOWAGIAC, MICH., Jan. 4.—A man named
Canfield was found frozen to death yester-
day morning at a spot about a mile and a
half from this city. He started to town
with a saw-log upon his sled, which rolled
off the sled and upon him, pinning him
down.

DIDN'T DANCE FAST ENOUGH.

MONTICELLO, IND., Jan. 4.—A young man
named Johnson froze his legs and arms so
badly yesterday morning while coming
from a dance that amputation will be nec-
essary to save his life.

FELL FROM HIS SLEIGH.

DETROIT, MICH., Jan. 4.—Henry Palmer,
of Walpole Lake, Oakland County, was yester-
day morning found frozen to death in
the road near the village. He is supposed
to have fallen from his sleigh and been

dragged until insensible before his horse got
away from him.

A YELL FROM YANKTON.

YANKTON, D. T., Jan. 4.—Twenty-six be-
low zero yesterday morning and twelve be-
low last night. A clear sky and no
wind; numerous cases of frozen ears, hands,
feet, and noses. Trains on the Dakota
Southern Road have not moved, all the
locomotives having been disabled by freezing.

THROUGH KENTUCKY.

RICHMOND, Jan. 4.—Thermometer 7° be-
low here. The Lexington and Richmond
stage driver came in this morning from Lex-
ington in almost a frozen condition, with
hands, feet and face terribly frost-bitten.MAYSVILLE, Jan. 4.—Thermometer yester-
day morning 19° below zero.MR. VERNON, Jan. 4.—12° below zero.
Coldest weather ever experienced.LEBANON, Jan. 4.—Thermometer yester-
day reached 15° below zero.

WALPOLE, MASS., Jan. 4.—A fire yesterday
destroyed the dwelling-house owned by
Benj. Neal, together with a portion of his
furniture. The wife of Neal is missing,
and is supposed to have perished in the
flames. Loss, \$2,000; no insurance.

A WIFE'S TRUST AT COURT.

YORK, PENN., Jan. 4.—George Einsig, of
Bell Troy, owing to drunkenness was
separated from his wife. He called upon
her Thursday evening at her home, and
upon her refusing to live with him, he cut
her throat, and she died soon afterward.EINSIG was seized by Gehrig, his father-in-
law, who carried the infant child of the
former in his arms, but the murderer cut
both of them in the face and head, and
then fled. He was subsequently arrested.

FATAL RAILROAD COLLISION.

DOWAGIAC, MICH., Jan. 4.—A terrible ac-
cident occurred on the Mich. Central Road,
near this city, this morning. The westward
bound express train ran into an accommo-
dation train, during a blinding snow storm.
The latter train was demolished, and C. R.
Milham was injured so severely that he has
since died. The engineer of the express
train had his skull crushed. The fireman
was badly slashed. Quite a number of
passengers sustained light injuries. Mil-
ham, who was killed, lived at Berrien
Springs, Michigan.

MYSTERY'S DEATH OF A DOCTOR.

ST. LOUIS, Jan. 4.—Dr. S. T. Brooks was
found dead in his room at Greenville, Ill.,
yesterday morning, with one hand raised
and a large hole burned in the floor. The
appearance indicated an explosion of a
lamp, but the fire had gone out, evidently
for want of air. The doctor had numerous
friends and relations East.

RESULT OF A BIT OF A SPEAK.

TORONTO, Jan. 4.—James Larmour (pen-
sioner) and wife were burned to death on
Thursday night at Brockton, the western
suburb of this city, while intoxicated; the
house in which they resided having taken
fire, as is supposed, from the upsetting of
the stove.

TRIAL OF MRS. COBB.

NORWICH, CONN., Jan. 4.—The sensation
in the Cobb trial yesterday was the appear-
ance on the witness stand of Wesley W.
Bishop, the alleged paramour of Mrs. Cobb.
His testimony corroborated the story told
in his confession, already published, to the
effect that it was settled between them
that she was to become his wife by burying
her husband, and he by getting a divorce
from his wife. He purchased for Mrs. Cobb
the morphine, aconite and arsenic which
she administered to her husband.

NOT RECORDED FOR BURGARS.

VINCENNES, IND., Jan. 4.—Wednesday the
Postmaster at Oaktown, a flourishing town
thirteen miles from here, was notified that
a gang of burglars meditated a raid on the
place Thursday night. The citizens there-
fore prepared for them in a quiet way and
distributed themselves, armed, in the dif-
ferent places of business. At 11 o'clock the
men in Maudslon's saloon heard persons at-
tempting to force the lock of the door. As
the door opened the burglars—three of
them—immediately fired, and almost at
the same instant the party in the saloon
fired. The burglars ran off, and after run-
ning one hundred and fifty yards one of
them fell, dying in twenty minutes.
The other burglar ran up the
railroad track, pursued by a number of
persons, firing. He returned their fire as he
ran, emptying all the chambers except one
of his two revolvers. Finally he fell, and
Dr. Warner, one of the pursuing party,
stooping over him, asked him if he was
dead. He turned over on his back, and
placing the pistol within six inches of Dr.
Warner's face, pulled the trigger, but it
failed to go off, thus saving Dr. Warner's
life.

Henry Norton, also pursuing, received a
bullet from Gainey's revolver, entering his
open mouth and passing through the left
cheek.

The dead man is named Noah Williams,
of Bloomfield. He was a stout, muscular
fellow, aged twenty-five. The citizens se-
cured one Aden C. Gainey, aged twenty-
two, who belongs to one of the best fami-
lies in Southern Indiana, and is the son of
A. W. Gainey, a rich merchant of Bloom-
field. Gainey received three bullets in his
body, but will survive.

MONCASI MUST DIE.

MADRID, Jan. 4.—The death sentence on
Moncasi will be carried out to-day. All ap-
peals to the Tribunal by influential persons
and relatives of the condemned man have
been disregarded. The King was disposed
to be merciful, but the Ministry were firm
in their determination that the man should
die, and State reasons prevailed. The pris-
oner was notified of his fate, and was placed
en capilla at 8 o'clock yesterday morning.

tion is in full blast to-day, and cold as it
is everybody is out and on duty. Last night
both parties were on the streets marching
about the city with torch-lights

to the liveliness, and altogether it was a
 gala night. There have been a few broken

Catherine Lewis, the principal soprano,

herself when she knew she had reached
such a period as would prevent her com-
pleting the season.Thursday morning Theodore Wellster,

who was trying to effect an entrance into

lic Cathedral was yesterday the scene of an
imposing ceremony, the occasion being the

celebrated by the Vicar General Omra,
Father Moss and Hogan acting as Deacon

sang responses, and the altar was clothed in
